

Congratulations!

We are honored you are considering our wedding floral design services. At Millbrook Farm Flowers we believe in making beautiful, creative, custom floral designs that will impress your guests and stand out in your photographs.

There is a wide range of floral design possibilities depending on budget, wedding date, and the size of your event. We tend to design for events in natural, garden settings with a romantic, organic vibe. However, we are versatile and have twenty years of floral experience so please bring all your inspiration ideas!

**Minimums:** Pricing minimums apply to certain venues. We take into account the venue layout, vendor access, and difficulty of set up. We will let you know in the initial inquiry stage if a minimum applies to your venue.

**Full Service Wedding:** Minimum pricing starts at \$3500. A full service wedding requires our team on site the day and evening of your wedding. From the ceremony set up, backdrop floral installations, reception set up of all florals, decor, and candles, we will bring your wedding vision to life. If the venue requires a “flip”, we stay to see your design plan carried out from ceremony to reception.

**What if my budget doesn't meet your minimum?** We will provide personal items, floral centerpieces or greenery garlands, and delivery to your venue. Pick up a day ahead from our studio is one option that works well for smaller events and elopements.

The average prices are based on arrangements made with flowers available in the season of your wedding. Requesting premium flowers such as garden roses, peonies, Japanese flowers, and orchids will increase the price. White wedding roses are in high demand, so you will pay more for a white palette than color. Certain times of the year such as February and May, your flowers will cost more due to demand from holidays.

### **Frequently Asked Questions**

#### **How do I know what budget range to set?**

There are several great resources available to help you get an idea of how much you can expect to pay. The Knot, Wedding Wire, Martha Weddings, are a few websites with helpful information on what to expect. Our prices may not be the lowest price quotes you receive, but our designs are truly customized to your event.

#### **I've received several different price quotes, aren't flowers the same?**

In short, NO! We focus on the highest quality blooms we can source. We source our wedding roses directly from sustainable fair trade farms in Ecuador and California. Your flowers will be cut and shipped a few days before your wedding. They won't be hanging out in a cooler for weeks. When you consider hiring a wedding florist, look closely at their portfolio and examine how their flowers photograph.

#### **Why do I need a consultation and when should I schedule it?**

During a consultation this is your time to describe your vision, go through your inspiration photos, and receive feedback about how

we can make it a reality. This can be done through video chat or in person. The best time to schedule a consultation is after you have selected your venue, wedding party members, and event color palette. You should have several inspiration photos or a mood board to provide us with an idea of what you are aiming for.

**Who is responsible for clean-up at the end of the night?**

This is highly variable from venue to venue. While the arrangements made are always yours to keep, some of the vases and containers will need to be returned. If you are ordering decor such as candles, lanterns, and drapes, those items are being “rented” from Millbrook Farm Flowers. Depending on the venue, if we are required to take all of our merchandise that evening a break down fee will apply. You will also be given the option to return items to our design studio after the event. If we decorate using items you have purchased for your ceremony or reception, you will be responsible for removing those items according to the venue agreement.
